# KYB TECHNICAL REVIEW

No. 54 APL. 2017

## CONTENTS

<b>Foreword</b>			
Live with the Times	KOMAKINE Takashi		1
<b>Editorial</b>			
Becoming a Truly “Technologically Developed Country”	SUZUMORI Kouichi		2
<b>Essay</b>			
Report of Residence in PT. KYBI	TANAKA Yoshihiro		7
Report of Residence in America and Mexico	OKUMURA Tetsuya		12
<b>Technology Explanation</b>			
Response Characteristics of Water Hydraulic Proportional Control Valves	YOSHIDA Futoshi		16
<b>Essay</b>			
Setting out to Become a Professional Engineer	TAKAMATSU Shinichi		24
<b>Technology Introduction</b>			
Development of Automotive Semi-Active Damper Control	KUDO Tomoyuki		30
<b>Glossary</b>			
“Harshness”	YONEZAWA Kazuhiko		34
<b>Technology Introduction</b>			
Development of Die Casting Analysis Techniques	YOKONO Kouta		35
Development of PREGIO-HCPS (High-brightness Chemical Plating System)	OKAJIMA Noriyuki		39
<b>Glossary</b>			
“Coating Defect”	AKAHORI Masahiro		44
<b>Technology Introduction</b>			
Development of High Damping Force Piston Valve for Extra Low Velocity	KIMISHIMA Kazuyuki		45
<b>Introduction</b>			
Setting up the KMEX SA Plant	KUSAKABE Makoto		49
<b>Technology Introduction</b>			
Methods for Improving Productivity and Quality for Machining	ITO Susumu		53
EPS Dampers	KOUKETSU Hisato		
Construction of a PPM Pump Flange Machining Line	OKUSHIMA Kouichiro		57
	OKAMOTO Kazuya		
Make Fabrication of Manifold In-House for Commercial Aircraft	KIDA Shigehito		61
<b>Product Introduction</b>			
Development of Piston Pumps for Mini-Excavators	TAKEI Gen		65
	SAKAI Yuki		
Development of High Power Output 2 pinion EPS	TSUTSUI Takaaki		71
	MURASE Tomoyuki		
Development of New Stroke Sensing Cylinder for Middle-Sized Machine			
Control and Machine Guidance Excavator	TAKAHASHI Yusuke		75
Development of Oil Damper System for Seismically Isolated Structures with Lock Mechanism			
	ITO Yoshihiro		79
	SUZUKI Takio		

### Editors Script
