
KYB TECHNICAL REVIEW

No. 55 OCT. 2017

CONTENTS

Foreword

Quality over Quantity OYAMA Osamu 1

Essay

Report on Residence at KTS NAGAE Tatsuhiko 2

Experience of ACTIVE Training (England, Spain) OHMORI Yusuke 6

Technology Explanation

Analysis Technology for Axial Piston Pumps and Motors SATO Naoto 10

Surface Treatment of Aluminium Alloy for Tribological Applications NAKASE Takuya 18
SAKURAGI Kenji

Product Introduction

Development of Externally-Mounted Shock Absorber with Adjustable Solenoid Damping Force
KAMAKURA Ryosuke 25
FURUTA Yusuke
MORI Toshihiro
TOMITA Kohei

Glossary

“Semi-Active Control” ITO Naoki 31

Product Introduction

Hydraulic Pump and Track Motor for Hydrostatic Transmission INADA Takanori 33
MIURA Takuya
MATSUZAKA Keita

Development of Control Valve for Wood-Splitting Machine ISHIJI Rei 39

Variable Damping Type Oil Damper SAKAKIBARA Kento 43

Technology Introduction

Development of Equipment for Evaluating Automotive Vane Pumps TSURI Takuya 48
FUJII Toshihiko
KODERA Yasuhiro
Standardization of Windows PC System for Inspection OGISO Shigetoshi 53

Introduction

Company-wide standardization activities about ISO 26262 at KYB KOZUMA Fumihide 57

Reduction of Industrial Wastes By Chemical Trick ~Wastes from Painting Could be Reduced~
HAYAKAWA Yoshitaka 62

Participating in an IIP Intellectual Property School INOUE Teruhiko 67
