
KYB TECHNICAL REVIEW

No. 54 APL. 2017

CONTENTS

Foreword			
Live with the Times	KOMAKINE Takashi		1
Editorial			
Becoming a Truly “Technologically Developed Country”	SUZUMORI Koichi		2
Essay			
Report of Residence in PT. KYBI	TANAKA Yoshihiro		7
Report of Residence in America and Mexico	OKUMURA Tetsuya		12
Technology Explanation			
Response Characteristics of Water Hydraulic Proportional Control Valves	YOSHIDA Futoshi		16
Essay			
Setting out to Become a Professional Engineer, Japan	TAKAMATSU Shinichi		24
Technology Introduction			
Development of Automotive Semi-Active Damper Control	KUDO Tomoyuki		30
Glossary			
“Harshness”	YONEZAWA Kazuhiko		34
Technology Introduction			
Development of Die Casting Analysis Techniques	YOKONO Kouta		35
Development of PREGIO-HCPS (High-brightness Chemical Plating System)	OKAJIMA Noriyuki		39
Glossary			
“Coating Defect”	AKAHORI Masahiro		44
Technology Introduction			
Development of High Damping Force Piston Valve for Extra Low Velocity	KIMISHIMA Kazuyuki		45
Introduction			
Setting up the KMEX SA Plant	KUSAKABE Makoto		49
Technology Introduction			
Methods for Improving Productivity and Quality for Machining EPS Dampers	ITO Susumu KOUKETSU Hisato		53
Construction of a PPM Pump Flange Machining Line	OKUSHIMA Kouichiro OKAMOTO Kazuya		57
Make Fabrication of Manifold In-House for Commercial Aircraft	KIDA Shigehito		61
Product Introduction			
Development of Piston Pumps for Compact-Excavators	TAKEI Gen SAKAI Yuki		65
Development of High Power Output 2 pinion EPS	TSUTSUI Takaaki MURASE Tomoyuki		71
Development of New Stroke Sensing Cylinder for Middle-Sized Machine Control and Machine Guidance Excavator	TAKAHASHI Yusuke		75
Development of Oil Damper System for Seismically Isolated Structures with Lock Mechanism	ITO Yoshihiro SUZUKI Takio		79
