
KYB TECHNICAL REVIEW

No. 63 OCT 2021

CONTENTS

Foreword

Motor Technology is Still Interesting KANO Yoshiaki 1

Technology Introduction

Externally-Mounted Shock Absorber with Adjustable Solenoid Damping Force
Development of a New Type of Solenoid and improvement of a Comfortable Ride & Quietness
ABE Tomoyasu 3
DOI Kohei
Development of Active Suspension by KYB INAMITSU Kazutaka 9
HORI Masatoshi

Technology Explanation

Development of an Equipment Predictive Maintenance System FURUKAWA Akira 15
ISASHI Ryouzuke

Product Introduction

Development of Cylinder Equipment for Mining Dump Trucks TANIGAWA Natsuki 23
HASEGAWA Kazuki
Development of “KADS”— An Electronically-Controlled Suspension System for Motorcycles
UEMURA Masashi 30
KOJIMA Hiroyuki
SUGAWARA Hidetoshi

Technology Introduction

Research on SA • PS Integrated Control Technology SASAKI Kei 36
TSUNAI Hideki
KANEKO Syuhei
KUDO Tomoyuki
KUBO Yamato
SUGAWARA Hiromichi

Glossary

Telescopic cylinder NAKANO Tomokazu 43
Pilot-operated KAWANO Yoshihiko 45
Levels of Driving Automation KABASAWA Ryoichi 46
