
KYB TECHNICAL REVIEW

No. 70 APR. 2025

CONTENTS

Foreword

A Prospective on the Future of Fluid Power Technology in Off-Road Applications	Andrea Vacca	1
--	--------------	---

Editorial

Mechatronics: In the Mind's Eye of an Engineer	TANAKA Yutaka	7
--	---------------	---

Greetings

Greetings	KAWASE Masahiro	11
-----------	-----------------	----

Special Program

KYB Technical Strategy	FUJII Atsushi	12
KYB Approach to Production Engineering	HABA Keiichi	14
Technical Prospects for Automotive Components Business	BABA Tomohiko	16
Technical Prospects for Hydraulic Components Business	NAKAMURA Masayuki	18
Technical Prospects for the Special Purpose Vehicles Business	KAMIJYO Takashi	20

Technical Article

Application of Ultrafine Bubbles to Grinding Processes	HATAYAMA Yousuke MIZUTANI Masayoshi	21
--	--	----

Technology Explanation

Construction of CFD Analysis Technology for Internal Gear Pumps	SHIMIZU Tomoka SUZUKI Kazunari	31
---	-----------------------------------	----

Technology Introduction

Construction of Self-Assembly Line Using Multi-purpose Assembly Robots	UGAJIN Yuuta YAMAGUCHI Toshihisa	38
--	-------------------------------------	----

Product Introduction

Development of EPS with In-house manufactured PP for Yamaha Motor	AOYAMA Masashi KIKUCHI Teruyuki	42
Development of Cartridge Type Vane Pump for Electric Pumps	KUBO Kohei	46
Development of Piston Pump PSVL-50 for 3-4 ton Mini Excavators	TAKEI Gen	50
Deployment of Swing Valves on Motorcycles	SAKAWAKI Toshihiko	53
Eco-0.4cc Pump	TSUJII Yoshikatsu	57

Introduction

IFPEX postscript	FUJIE Tomoya	61
20 Years of KYB Museum	KOMUTA Kumi FUJISAWA Kyoko SATO Tomonori	64

Essay

Essay from Expatriate in Germany and Spain	IIDA Ryo	71
--	----------	----

Glossary

1. Fine Bubbles	HATAYAMA Yousuke	83
2. Internal Gear Pump	SUZUKI Kazunari	84
