

Be careful of a false e-mail offering a job!

We have recently become aware of e-mails offering job or business opportunities sent to individuals and companies by unknown senders in an assumed name of our company officer. The senders' e-mail addresses have the domain names such as [kkyb.co.jp], [kybonlinejp.com]and[kybcorporation.org], neither of which is ours. As those e-mails have nothing to do with us, we should not be held responsible for them. Please be careful of those types of false e-mails.
