

## Thank you for visiting us at CIAME

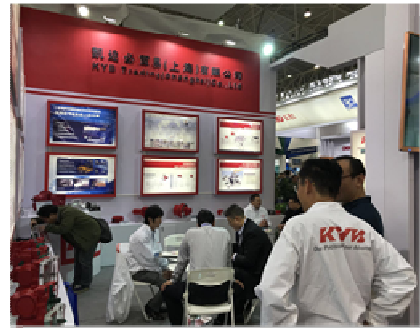

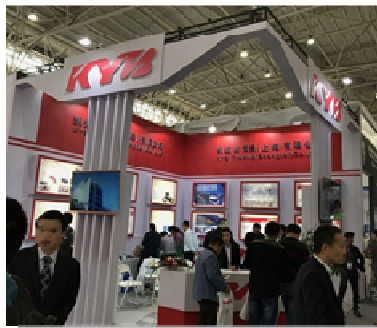

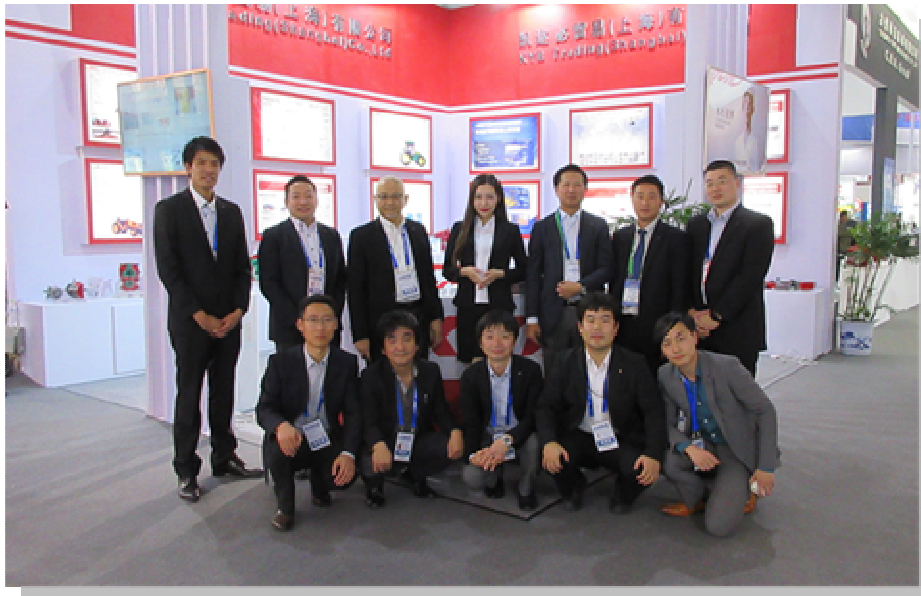

KYB Corporation and group companies KYB Trading (Shanghai) Co., Ltd., KYB Engineering & Service Co., Ltd., and Takako Industries, Inc., held a joint exhibition at the China International Agricultural Machinery Exhibition (CIAME). The event ran from Thursday, October 26 to Saturday, October 28 at the Wuhan International Expo Center in Wuhan, China.

We'd like to express our gratitude to the many attendees who visited the booth. We hope you found our exhibition to be interesting and informative.

We introduced cutting-edge electronics technology with a focus on hydraulic static transmissions (HST), as well as the hydraulic technology and products for agricultural machinery that our company has developed over many years in the field. Amidst concerns over a sharp rise in world population growth, agricultural machinery is expected to be increasingly in demand to support the resulting need for food production.

We received the opinions and requests of our visitors at the exhibition, and will apply them to our efforts toward creating better products in the future.
