

## KYB NEWS

### KYB Team JC Win the 2020 FIA World Rallycross Championship for Teams

KYB sponsored team, KYB Team JC, has won the series team championship at the 2020 World Rallycross Championship. In addition to supporting KYB Team JC as an official sponsor, we improve our technological skills and train our human resources by conducting development, supply and technical support for racing shock absorbers (SA) and electric power steering (EPS).

In this year's series, former World Rallycross Champion Mattias Ekström made an explosive comeback, finishing in the second spot in the driver's ranking, and his teammate Robin Larsson was ranked at sixth place. Combined, their efforts brought the team ranking up to number one. Their cars were equipped with SA and EPS packed with KYB's latest technology, which were lauded for showing outstanding maneuverability and attracted attention to the high performance and reliability of KYB products.
