
KYB TECHNICAL REVIEW

No. 61 OCT. 2020

CONTENTS

Foreword

Everything is “Genchi Genbutsu” ITO Toshio 1

Technology Explanation

Performance Improvement of Vane Pump via CFD Analysis SUZUKI Kazunari 3
NAGASHIMA Midori

Development of a Smart Road Monitoring System SHUTO Yu 11
TAKAMATSU Shinichi

Glossary

The Beginning of a New Society OKAMURA Atsushi 21

Technology Introduction

Analysis Technology for Rattling Noise in Reduction Gears of Pinion-Type Electric Power Steering
YAGYU Takaya 23

Glossary

Backlash and Rattling Noise MIYATANI Osamu 28

1D Simulation and 1DCAE SHIMADA Miho 29

Technology Introduction

Development of a Wireless Condition-Monitoring System for Hydraulic Cylinders
IWAMOTO Takahiro 31
TAKAHASHI Yusuke

Development of Non-destructive Inspection Technology for Cylinder Tube Bottom Welded Zones
MITSUO Takashi 35

Development of the “MR12” Mixer truck with driveshaft drive SAITO Hiroaki 40

Development of a Hydraulic Module Robot SAITO Yasushi 45
SUGIMOTO Shunichi
SANG-Ho Hyon

Product Introduction

Mini Motion Package 5 (MMP5) TANAKA Daisuke 50

Introduction

Development of a Shock Absorber for the World Rallycross Championship
OKUMURA Masatoshi 55

Essay

Report on Residence in the Czech Republic, Spain and Germany MATSUOKA Tsuyoshi 60

Report on Residence in the USA and Mexico OKA Keiko 64
