
KYB TECHNICAL REVIEW

No. 71 OCT. 2025

CONTENTS

Foreword

Comprehensive locomotion analysis and product evaluation using a treadmill equipped with an integrated force plate

YAMADA Hiroshi 1

Technology Introduction

Sound Design and Sensitivity

KONISHI Masahide 3

Development of Modular Hydraulic Robots

Development of a detachable mechanism for convenience in on-site work

HIRONAKA Tuyoshi 9

ARAKAWA Takuya

KITAMURA Yoshiaki

ANDO Ryo

HYON Sang Ho

Validation of a Simulation-Based Method for Deriving Optimal Conditions in Induction Hardening

KISHI Tomohiro 16

Product Introduction

Development of the KVSX-12C-PSL control valve for small hydraulic excavators

FUKUSHIMA Ryo 24

Introduction

Sagamihara Innovation Gate Activities

NAGAI Yuuki 28

Post-show report from the Shanghai Automotive Thermal Management Exhibition

KUBO Kouhei 33

Essay

Essay from Expatriate in Thailand

KAWABE Toshiharu 37

Essay from Expatriate in Czech

SAITO Takuya 44

Glossary

1. Comfortable sound design and acoustic analysis

KONISHI Masahide 48

2. Hysteresis

FUKUSHIMA Ryo 49
